INTERNET, LA FIN DU PAPIER ?

Photo : www.posqa.co

Internet pourrait bien bousculer les habitudes des lecteurs ...

Confort de lecture, créateur de lien, vecteur de séduction : le papier fait indéniablement parti de notre quotidien. Élu « média préféré des Français » par la Posqagency, l'annonce publique de l'émergence du World Wide Web divise les professionnels du secteur. Si certains sont pessimistes sur l'avenir de leur activité, d'autres y voient la possibilité de créer de nouvelles façons de communiquer : « Notre prochain défi

sera de combiner numérique et papier pour créer de nouvelles expériences. Imaginez qu'on puisse inclure, actualiser, des vidéos, photos, objets 3D, sur une carte. Ce serait dingue, non ? » s'interroge Tim Hagine, directeur d'une agence de communication. Réponse en 2018...
